Professional Summary :

Professional with 3+ years of experience in both **manual and automation** testing across web and mobile applications. Skilled in Playwright (JavaScript/Python) and foundational Selenium for robust end-to-end automation. Proficient in functional, integration, regression, and system testing with hands-on API testing using Postman. Adept in **UI/UX design** principles and **front-end** development with React.js. Experienced in **ERP domains** including Procurement, Supply Chain Management, Warehouse, and Master Data. with additional experience as an **ERP Associate Consultant**. Served as the **Project POC**, coordinating cross-functional communication and ensuring smooth project execution. Focused on delivering high-quality.

Professional Experience :

QA Engineer & Product POC | Piersoft Technologies, Hyderabad | May 2023 - Present

- Performed manual and automation testing for web and mobile applications using **Playwright (JavaScript/Python)** and basic Selenium.
- Conducted functional, regression, integration, and system testing, ensuring full coverage and timely defect resolution.
- Acted as the **Product POC**, coordinating with clients, developers, and design teams to clarify requirements and streamline communication.
- Led API testing using **Postman**, validating backend integrations, error handling, and response accuracy.
- Created and maintained test cases, test plans, and release documentation while contributing to UI/UX improvements.

Infor ERP LN Consultant & Infor ION | Piersoft Technologies, Hyderabad | June 2022 – May 2023

- Configured and customized Infor LN ERP modules including **Procurement, Warehouse, Master Data, Sales, Manufacturing, and Finance**.
- Streamlined procurement and warehouse workflows, improving operational efficiency and reducing process delays.
- Collaborated with clients to gather requirements, perform gap analysis, and deliver optimized, scalable ERP solutions.
- Utilized **Infor ION** to manage **approval flows, trigger automated tasks, and configure real-time notifications** across modules, ensuring seamless process automation.
- Participated in end-to-end implementation activities including configuration, testing, user training, and post-deployment support.
- **Technologies:** Infor LN (10.4 & 10.7), **Infor ION**

Projects:

Market Place Mobile Application | Apr 2025 – Present

- Performed manual and automation testing (Playwright + API validation) for Android/iOS marketplace features and release builds.
- Served as POC for release readiness, coordinating issue fixes, performance checks, and Play Store deployment validation.

Procure 360 (ERP Procurement Module) | Jul 2024 – Present

Tested procurement workflows (PR, PO, vendor management, approvals) with functional, regression, and API testing.
Automated key flows using Playwright and collaborated with product/design teams to ensure UI/UX consistency.

Vendor Portal | Jan 2024 – Jul 2024

Tested vendor onboarding, tax validation, and ERP integration workflows with API + UI testing.
Ensured data accuracy and approval flow stability across vendor lifecycle stages.

Item Portal | Jan 2024 – Jun 2024

Conducted functional and integration testing for Purchase, Cost, and Subcontracting item creation and approval flows.
Identified workflow issues and automated repetitive scenarios to improve testing speed and coverage.

Converse Portal | July 2023 – Jan 2024

Performed system and integration testing for cross-department ERP communication workflows.
Validated role-based access, workflow routing, and data consistency across modules.

UI/UX Designs for Mobile & Web | Mar 2023 – Jun 2023

Designed 300+ mobile screens and 500+ web frames using **Figma** and **ProtoPie**, focusing on intuitive user flows and modern UI patterns.
Created interactive prototypes to improve user experience, ensure design clarity, and support development teams with accurate design specifications.

Infor LN Upgrade (10.4 to 10.7) | Nov 2022 – May 2023

Participated in the upgrade planning and execution, supporting configuration updates, data validation, and module alignment between versions 10.4 and 10.7.
Collaborated with functional teams to gather requirements, assist in system setup, and provide user training and documentation for smooth adoption of the upgraded system.

Core Skills
Automation Tools: Playwright, Appium, CI/CD Integration (Jenkins)
Programming & Scripting: JavaScript, C,C++,Python, SQL, HTML, CSS
Testing Expertise: Functional Testing, Regression Testing, UI Testing, API Testing, Cross-Browser Testing, Smoke & Sanity Testing
ERP Domains: Procurement, Inventory, Finance, Projects, Warehouse Modules
Manual Testing: Test Case Design, Test Execution, Defect Tracking & Reporting
Tools & Platforms: JIRA, Postman, Git/GitHub, VS Code, Cursor, JMeter
Methodologies: Agile (Scrum), SDLC, STLC

Education:

Bachelor of Technology (B.Tech) in CSE(Computer Science & Engineering)
[Pydah Kaushik college of Engineering]- Vishakapatnam , [2016-2020]
Intermediate (MPC)
Narayana Junior College, Visakhapatnam | 2014 – 2016

Certifications

C ,C++ : IGIAT (INDO GERMAN INSTITUTE OF ADVANCED TECHNOLOGY)
Associate Consultant – Infor LN:
